

3M matting disc Standard Abrasive

The GP Vacuum Disc with Hookit™ Standard Abrasives™ Polishing and Grinding is a versatile, non-woven abrasive disc designed for roughing, cleaning, deburring and light finishing of a wide variety of metals. Our hookit™ GP vacuum discs can be used with hookit™* brackets on orbital sanders. * Sold separately.

Use the GP vacuum disc with hookit™ Standard Abrasives™ polishing and grinding disc to rough, clean, deburr and lightly finish a wide variety of metals. A good starting point for a wide variety of light applications, our GP suction discs are versatile, multi-purpose discs with a less aggressive non-woven abrasive than the HP material used in our range of Standard Abrasives polishing and grinding products. . The sturdy yet collapsible open spread is clogging-resistant and limits debris buildup and clogging. Our hookit™ discs are designed for use with hookit™* mounts on orbital sanders. Our discs are available with intermediate (MED) and very fine (VFN) grain alumina mineral. * Sold separately.
