

SAVAGE A40

The SAVAGE A40 screen has been designed to meet the needs of various welder profiles, providing a lightweight and technologically advanced casing to protect from heat, sparks and splashes. Incorporating the latest ADF technology, the welding filter provides great visual clarity with the True Color function, resulting in excellent optical quality. The SAVAGE A40 display provides ideal functionality, performance and comfort for casual welders, maintenance and construction workers, and even professional welders.

Welding process

- -Plasma Cutting
- -Oxy-Fuel Cutting
- -SMAW/MMA (Stick)
- -GTAW (TIG)
- -GMAW (MIG/MAG)
- -PAW - Plasma Arc Welding
- -Grinding
